MEMORANDUM FOR: Acting Chief, Intelligence School
Chief, Support School
Chief, Operations School
Chief, Instructional Support Staff

SUBJECT : OTR Annual Report with Special Reference
to Component Training

1. Attached for your information are copies of correspondence between the DD/S and the Director of Training which reflect an interest at General Cushman's level in our annual training report and in component training in particular. This is a very encouraging development. It does re-emphasize, however, the fact that we will be expected to turn in an even better job in Fiscal Year 1970 than in Fiscal Year 1969 in connection with our support and monitoring of component training.

2. Your attention is directed to my memorandum in reply commenting on the use of the Chief, Instructor Training Branch, IS Staff (Mr.) in assisting the components with instructor training. Please be sure that his availability for this purpose is known to each of your components, and call upon him if his services are desired by the components or by you.

HUGH T. CUNNINGHAM
Director of Training
